

Transition Services

Specialized programs to help disabled veterans successfully transition into the workforce

uexams.com

* Equal Opportunity Employer

uExamS is the leading global provider of human and technology enabled services for the education and career training of people with disabilities. Our global network of service providers and technology solutions ensure the highest quality educational experience for all, nationwide and worldwide.

A Partnership That Delivers Real Results

Unmatched Expertise

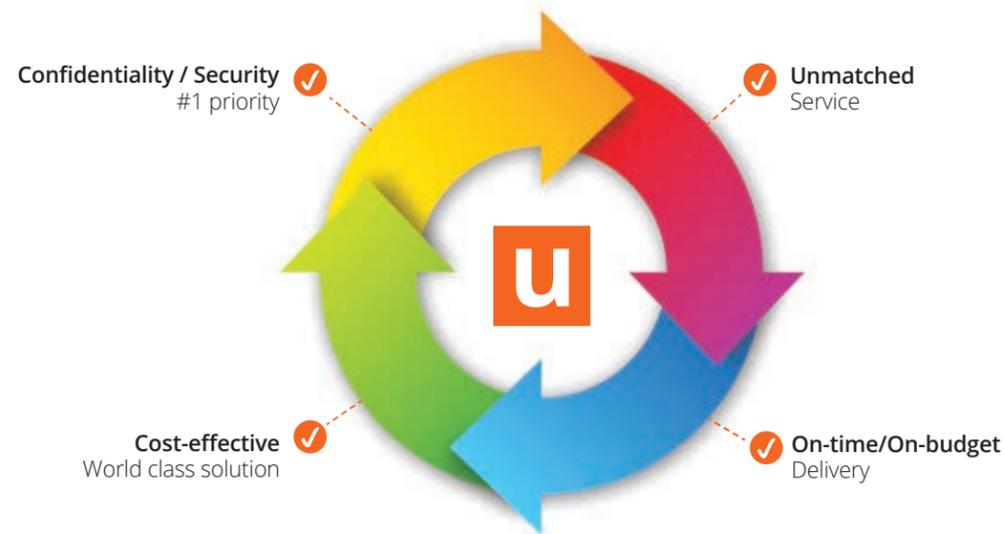

Benefit from seasoned professionals who set the standard for expertise, ethics, and professionalism. uExamS' depth of experience working with individuals with disabilities, including those with post-traumatic stress disorders, is unmatched. With patience and compassion, our trainers have helped many overcome their challenges and go on to achieve their educational and career goals.

Global Reach

From Boston to Bangalore, uExamS provides consistently excellent service around the world in more than 40 languages. Our language and global experience allows us to provide training and ADA-approved accommodations anywhere and at anytime.

5-Star Service

uExamS' service providers & technology solutions provide a seamless experience for program participants and a worry-free management experience for your team. Our outstanding support systems ensure that the focus remains on the program participants, not logistical and administrative issues.

Veterans Transition Services

Workforce Re-entry Program

We can integrate our specialized accommodation services into your existing transition programs or create a custom program to meet the unique needs of veterans with disabilities. Our coaches work one-on-one with participants to ensure they develop the skills, tools, and confidence needed to succeed in the workplace.

Specialized PTSD Program

In addition, uExamS can work with your experts to create a customized program for those suffering from PTSD-related issues. Our specially trained professionals are experts in creating an encouraging and positive classroom experience for those with stress-related or cognitive issues. We can help participants overcome their stress and anxiety and prepare themselves for the challenges of the workplace.

Classroom Accommodation Services

uExamS provides highly trained program assistants to help with the unique classroom and learning needs of those who are blind, deaf, or may have a physical disability. Services include readers, recorders (scribes), sign language interpreters, foreign language interpreters and translators, software trainers, Communication Real-Time Translation (CART) services, and more. With a global network of service providers, we carefully recruit and place people who have the appropriate background qualifying them to assist people with disabilities in all professional fields.

Employer Advisory Services

uExamS can also provide advisory services to prospective employers, guiding them on the specialized needs of disabled veterans as future employees. We act as advocates for program participants to ensure employers can integrate them into their working environment and set them up for future success.

All of our veterans programs are fully customizable to meet the specific needs of program participants.

The Power of Outstanding Service

Leverage the unique training and expertise of uExamS' team of professional service providers. With their exceptional skills and dedication, they create a comfortable and effective learning environment for veterans facing physical, cognitive, or stress-related challenges.

uExamS' specialized services provide participants with the training they need to successfully transition to the workplace—all delivered to meet their specific learning and physical needs.
